Recommended Places to Visit

Commercial Street

If historic Provincetown Harbor is the heart of Provincetown, then Commercial Street is the main artery that gets the blood circulating! It is an eclectic mix of stores, restaurants and clubs. Along its length you'll find Bars & Restaurants, Housewares & Home Decor, Art Galleries, Wine Stores, Souvenir Shops and every other trade imaginable to man, truly a shopper's paradise. The narrow streets of Provincetown were never really meant for cars, so park your car on the Wharf and enjoy the mix of people that make their way down the middle of Commercial Street. The pace is slow, and the street is colorful, enjoy all it has to offer from the Trolley to the Street Performers.

Pilgrim Monument

Whether you arrive by land, sea or sky, the Pilgrim Monument is the first thing you see when you approach Provincetown. Standing at 252 feet, the Monument commemorates the history of the Mayflower Pilgrims. It's the tallest all-granite structure in the United States. Come climb to the top on a series of stairs and ramps and you'll be rewarded with a spectacular view of Provincetown and beyond. <http://www.pilgrim-monument.org> Phone: (508) 487-1310.

Race Point Beach

Named for the fierce rip tides that come around the point of the Cape, this beach is the wilder ocean sister of Herring Cove. This portion of the Cape is building as a result of "long shore" transport of sand from the south, and Race Point has a vast sand beach. Provincetown has some of the most spectacular sand dunes on Cape Cod. Race Point Lighthouse, which marks the tip of the Cape for passing vessels, is a

close walk. The shoreline at Race Point drops off dramatically- pass the day by watching the occasional whale or sailboat that comes through the deep water close inshore.

Beach Forest

Located within the Cape Cod National Sea Shore Park, the parking lot is off Race Point Road. Beech Forest Loop is a ¼ mile trail. The Beech Forest is the product of centuries of development. It represents the last stage in the sequence of changing plants on Cape Cod. Given the climate and the nature of the local soils, it is ultimate cover of the life.
