

David T. Doot
Secretary

September 23, 2021

VIA ELECTRONIC MAIL

TO: PARTICIPANTS COMMITTEE MEMBERS AND ALTERNATES

RE: Initial Notice of October 7, 2021 NEPOOL Participants Committee Meeting

Pursuant to Section 6.6 of the Second Restated New England Power Pool Agreement, initial notice is hereby given that the October meeting of the Participants Committee will be held **in person on Thursday, October 7, 2021, at 10:00 a.m. at the Colonnade Hotel, 120 Huntington Avenue, Boston, MA in the Huntington Ballroom** for the purposes set forth on the attached agenda and posted with the meeting materials at nepool.com/meetings/.

For your information, the October 7 meeting will be recorded. NEPOOL meetings, while not public, are open to all NEPOOL Participants, their authorized representatives and, except as otherwise limited for discussions in executive session, consumer advocates that are not members, federal and state officials and guests whose attendance has been cleared with the Committee Chair. All those in attendance or participating, either in person or by phone, are required to identify themselves and their affiliation at the meeting. Official records and minutes of meetings are posted publicly. No statements made in NEPOOL meetings are to be quoted or published publicly.

This will be our first in-person meeting since we moved to virtual meetings in response to the COVID-19 pandemic more than a year and a half ago. We have included here the safety protocols that will be in effect for in-person attendance at the October 7 Participants Committee meeting. In summary, only those who are fully vaccinated, and have provided in advance of the meeting verification of full vaccination, will be permitted to attend in person. Pursuant to the [City of Boston's mask mandate](#), all attendees must wear masks or face coverings at all times except when actively eating or drinking. Additional safety measures are outlined in the protocols. An e-mail regarding meeting registration and more detailed instructions for providing verification of vaccination will be sent under separate cover.

As with any in-person meeting, there will be COVID-related risks associated with in-person attendance at the October 7 Participants Committee meeting, but there are also substantial benefits from being together in-person. Efforts have been made to reduce the risks and to ensure that no unvaccinated people attend the meeting, but each of you will need to perform your own risk/benefit calculus in deciding whether to participate remotely or in-person. We look forward to seeing those who decide to attend in person as your elected officers work to maximize the value and benefit of the stakeholder process in the region.

INITIAL AGENDA

1. To approve the draft minutes of the September 2, 2021 Participants Committee meeting. Copies of the draft minutes are included with this initial notice and posted with the meeting materials. Please provide us with any comments on the draft minutes no later than noon, Thursday, September 30, 2021.
2. To adopt and approve the actions recommended by the Technical Committees set forth on the Consent Agenda included with this initial notice and posted with the meeting materials. In accordance with the Participants Committee Bylaws, if you wish to remove this recommended action from the Consent Agenda, you must so indicate by notifying the Secretary on or before 5:00 p.m. next Thursday, September 30, 2021.
3. To receive an ISO Chief Executive Officer report. The October CEO report will be circulated and posted in advance of the meeting.
4. To receive a report from the ISO Chief Operating Officer on the following:
 - a. Operations Report Highlights.
 - b. Annual Work Plan
 - c. Operational Impact of Extreme Weather EventsMaterials for these items will be circulated and posted in advance of the meeting.
5. To consider, and take action, as appropriate, on the following proposed budgets:
 - a. 2022 ISO-NE Operating and Capital Budgets; and
 - b. 2022 NESCOE Budget.Background materials and draft resolutions will be included and posted with the supplemental notice.
6. To consider, and take action, as appropriate, on the removal of notarization requirements from Sections II.A.2 and II.A.3 of the Financial Assurance Policy. Background materials and a draft resolution will be included and posted with the supplemental notice.
7. To consider and take action, as appropriate, on changes to Attachment K to Section II of the Tariff related to the treatment of existing resources in transmission needs assessments and public policy transmission studies. This matter is to be considered by the Transmission Committee at its September 28 meeting. Background materials and a draft resolution will be included and posted with the supplemental notice.

[continued on next page]

8. To consider, and take action, as appropriate, on draft NEPOOL comments to be submitted in response to the FERC's Transmission Planning & Allocation/Generation Interconnection Advanced Notice of Proposed Rulemaking. Background materials and a draft resolution will be included and posted with the supplemental notice.
9. To consider and take action, as appropriate, on recommendations by the Membership Subcommittee to adopt a definition of "Associate Non-Voting Participant" (deleting the definition of Fuels Industry Participant), determining each Fuels Industry Participant to be an Associate Non-Voting Participant, and delegating to the Subcommittee the authority to approve applications for membership, subject to the Standard Membership Conditions, Waivers and Reminders, received from gas industry participants or energy sector trade associations. Background material and draft resolutions will be included and posted with the supplemental notice.
10. To receive a report on current contested matters before the FERC and the Federal Courts. The litigation report will be circulated and posted in advance of the meeting.
11. To receive reports from Committees, Subcommittees and other working groups:
 - Markets Committee
 - Reliability Committee
 - Transmission Committee
 - Budget & Finance Subcommittee
 - Others
12. Administrative matters.
13. To transact such other business as may properly come before the meeting.

Protocols for In-Person Attendance at NEPOOL Meetings During the Covid-19 Pandemic

These protocols for return to in-person NEPOOL meetings are effective as of the date above and may be modified from time to time as guidelines from the U.S. Centers for Disease Control (“CDC”), applicable state or local requirements, or circumstances change.

Background

The Protocols provided herein outline recommended and preventative measures to reduce the COVID-related risks associated with attendance in person at NEPOOL meetings.¹ Measures include safety precautions individuals must take while at in-person meetings. In-person attendance will follow and adhere to the latest CDC guidelines (as well as any additional, applicable state or local requirements that may be in place). As with any in-person meeting, there will be COVID-related risks associated with in-person attendance. **Each in-person attendee should perform their own risk/benefit calculus in deciding whether to participate in-person or remotely.**

Safety Precautions

Proof of Full Vaccination Required. To attend a NEPOOL meeting in person, each attendee must be fully vaccinated.² Proof of vaccination (e.g., a copy of a completed COVID-19 Vaccination Record/Card) must be provided to NEPOOL counsel (pmgerity@daypitney.com) in advance of the meeting.³ An attendee who is unable to provide a copy of a completed COVID-19 Vaccination Record may sign and provide a COVID-19 Vaccination Status Attestation as an alternate form of proof. All such records will be maintained by NEPOOL Counsel in a confidential file. Those who are not vaccinated, or who have not timely provided proof of vaccination, will not be permitted in the meeting room and will be encouraged to participate by teleconference/WebEx. An individual’s ability to attend a meeting in person will be restored following proof of vaccination.

¹ NEPOOL meetings, while not public, are open to all NEPOOL Participants, their authorized representatives and, except as otherwise limited for discussions in executive session, consumer advocates that are not members, federal and state officials and guests whose attendance has been cleared with the Committee Chair. All those in attendance or participating, either in person or by phone, are required to identify themselves and their affiliation at the meeting.

² A person is considered fully vaccinated: (i) 2 weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or (ii) 2 weeks after a single-dose vaccine, such as Johnson & Johnson’s Janssen vaccine. If you don’t meet either of these criteria, regardless of age, you are NOT fully vaccinated.

³ Proof of vaccination of ISO employees or representatives, as a condition of their in-person attendance, will be confidentially (i) collected and maintained by the ISO and (ii) verified by an ISO committee officer with NEPOOL counsel in advance of attendance at a meeting.

Registration Required; Contact Tracing. Registration for in-person attendance will be required and the Committee Secretary will keep a separate record of all individuals in attendance in person for the purpose of later contact tracing. Specific contact tracing information is confidential and NEPOOL will not use this information for any other reason. Contact tracing information will be kept for 28 days and destroyed thereafter.

Attendance In-Person Not Permitted if Experiencing Covid-19 Indicative Symptoms. Individuals should not attend an in-person meeting if they are experiencing new or worsening symptoms of any of the following in the last 14 days:

- Fever of 100.4 °F (38.0 °C) or higher
- Chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New Loss of Taste or Smell
- Sore Throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Attendance In-Person Not Permitted if Recent Exposure to Covid-19-Positive Individual. Individuals should not attend in-person meetings if they have had a likely exposure to a COVID-19 positive individual in the last 14 days.

Physical Distancing. The opportunity for physical distancing at meeting tables will be provided where and as possible, but will not be enforced. Attendees are encouraged, whenever otherwise possible, to separate themselves by 6 feet of distance. Seating at round tables should be limited to six or fewer.

Masks. If and as required by CDC guidelines or by the requirements of the state or locale in which the meeting is taking place, face coverings (“masks”) shall be worn. Where physical distancing cannot be maintained, it is recommended that attendees wear masks whenever they are not seated, including while in transit to or from their seat and while standing in lines or in the room.

Sanitizing. Hand sanitizer and wipes will be made available at each meeting. Additional arrangements will be implemented to facilitate sanitation measures. (e.g. All microphones will be positioned and sanitized prior to arrival. Microphones will also be sanitized at lunch and at the end of the day. Alcohol sanitizing wipes will be available for attendees to utilize during the meeting to sanitize the microphones between users.)

Reporting and Communicating a Positive COVID-19 Result

In the event of a COVID-19-positive test result, an individual that attended an in-person meeting within 14 days of that result should immediately contact NEPOOL Counsel (pmgerity@daypitney.com) to report their COVID-19 status. NEPOOL Counsel will maintain the individual's privacy while notifying those that attended the meeting in person of the positive test result. Please be advised that all health information is private and strictly confidential and will only be shared on a need-to-know basis to confirm and trace any contact with the positive tester at a NEPOOL in-person meeting and contact those who may have been exposed. Any notice of a COVID-19-positive test result will be kept for 28 days and destroyed thereafter.

Remote Participation

For those individuals who are otherwise authorized to attend a NEPOOL meeting, but choose not to, or because of safety measures are unable to, attend meetings in person, remote participation (i.e. by teleconference and/or by WebEx) will continue to be made available.

MEMORANDUM

TO: NEPOOL Participants Committee Members and Alternates
FROM: Pat Gerity, NEPOOL Counsel
DATE: September 23, 2021
RE: 2022 Participants Committee Officer Elections

In order to ensure that the selection process requirements in the Participants Committee Bylaws for 2022's Participants Committee officers can be timely completed, we need each Sector to indicate, no later than **Monday, November 1, 2021**, who the Sector has selected to serve as the Sector's Participants Committee officer. A description of the qualifications, responsibilities, and expectations of the Sector officers selected has been included with this memorandum. We urge each of you to work within your Sectors to select your Sector's 2022 Participants Committee officer.

By way of reminder, the Bylaws require that one voting member from each Sector be selected by a majority of all the voting members in its Sector (i) to serve as a nominee for Chair of the Participants Committee and (ii) if not elected Chair, to serve as a Committee Vice-Chair. A secret written balloting process will then be conducted to elect the 2022 Chair from among the Participants Committee officers selected by each of the Sectors. To allow time for that balloting process ahead of the December 2 Annual Meeting, as required by the Bylaws, we need the officers to be identified by November 1, 2021.

If any Sector needs assistance in conducting the vote for its Sector officer, please let us know (preferably no later than October 21). We would be pleased to help however we can. Also, if you have any questions, please contact me at pmgerity@daypitney.com or (860) 275-0533.

***Participants Committee Sector Officer
Qualifications, Responsibilities, and Expectations***

Qualifications: A Participants Committee Chair or Vice-Chair must be a voting member of the Participants Committee. Per the Participants Committee Bylaws, one voting member from each active Sector of the Participants Committee is to be selected to serve as the Vice-Chair of the Sector “by a majority of all the voting members in its Sector.” The Chair is selected from among the nominated Vice-Chairs using the balloting procedures in the Bylaws.

Responsibilities and Expectations of Participants Committee Sector Vice-Chairs:

1. Help to build and maintain a collegial and productive working relationship with other Committee officers and members, ISO management, and state officials participating in Committee activities.
2. Communicate routinely and effectively with other members of the Sector:
 - a. To help ensure that members have the information needed to support informed and active Committee participation;
 - b. To ensure that the officer has sufficient information to provide to the other officers, ISO management and staff, and state and federal officials a fair and objective report of Sector members’ positions and sensitivities on regional matters; and
 - c. To report objectively to Sector members information, questions, positions, perspectives, and sensitivities of or from the other Sectors, the ISO, and state officials that are provided to the Officer to be shared with the Sector.
3. Attend and lead or support planning for and participation in Participants Committee meetings, including (a) participation in pre-planning conference calls and in-person meetings to identify and confirm discussion and consent agenda topics and materials, meeting logistics and orderly flow of business at Committee meetings, and (b) serving as Chair if and as needed for a meeting or portions of a meeting at which the Chair is not able to preside.
4. Coordinate and organize Sector members when appropriate, including for meaningful participation by the Sector members in the semi-annual meetings with the ISO Board of Directors, state officials and FERC representatives.
5. Ensure that the Sector is fairly and objectively represented at other committee and working group meetings and meetings among Officers, ISO management and state officials, and that the Officer or representative is reasonably informed as to the perspectives and sensitivities of the Sector members.
6. With the other NPC Officers, review and comment on NEPOOL filings or pleadings, raising awareness of any Sector-specific sensitivities.
7. Serve, or designate an appropriate Sector member to serve, on the Joint Nominating Committee that recommends to the Participants Committee for endorsement a slate of candidates for membership on the ISO Board of Directors.

9/23/2021

PRELIMINARY

Pursuant to notice duly given, a meeting of the NEPOOL Participants Committee was held via teleconference beginning at 10:00 a.m. on Thursday, September 2, 2021. A quorum, determined in accordance with the Second Restated NEPOOL Agreement, was present and acting throughout the meeting. Attachment 1 identifies the members, alternates and temporary alternates who participated in the teleconference meeting.

Mr. David Cavanaugh, Chair, presided and Mr. Sebastian Lombardi, Assistant Secretary, recorded.

APPROVAL OF JULY 21 AND AUGUST 5, 2021 MEETING MINUTES

Mr. Cavanaugh referred the Committee to the preliminary minutes of the July 21, 2021 morning meeting and the August 5, 2021 meeting, as circulated and posted in advance of the meeting. Following motion duly made and seconded, the preliminary minutes of those meetings were unanimously approved as circulated, with an abstention by Mr. Michael Kuser's alternate recorded.

CONSENT AGENDA

Mr. Cavanaugh referred the Committee to the Consent Agenda that was circulated and posted in advance of the meeting. Following motion duly made and seconded, the Consent Agenda was unanimously approved as circulated, with an abstention on behalf of Mr. Kuser's alternate recorded.

ISO CEO REPORT

Mr. Gordon van Welie, ISO Chief Executive Officer (CEO), referred the Committee to the summaries of the ISO Board and Board Committee meetings that had occurred since the

August 5, 2021 Participants Committee meeting, which had been circulated and posted in advance of the meeting. There were no questions or comments on the summaries.

In response to a more general question regarding the timeline and efforts for incorporating Effective Load Carrying Capability (ELCC) into the region's arrangements, Mr. van Welie noted that incorporating ELCC was a top priority for the ISO. He explained that, from the preliminary work plan and thinking under way, the project may be multi-stage and multi-year, particularly given resource complications and energy constraints. He expressed an initial preference for implementing a marginal, rather than an average, ELCC approach. He indicated the ISO had a goal of implementing ELCC beginning in FCA18 for certain resources identified to have the largest impact, which he explained were those whose capacity ratings were determined to be the most overstated in the qualification process. A member suggested that the ISO consider a more holistic approach that would allow for other market enhancements to be applied more broadly to the capacity accreditation process.

ISO COO REPORT

Dr. Vamsi Chadalavada, ISO Chief Operating Officer (COO), began by referring the Committee to his September report, which had been circulated and posted in advance of the meeting. Dr. Chadalavada noted that the data in the report was through August 25, 2021, unless otherwise noted. The report highlighted: (i) Energy Market value for August 2021 was \$534 million, up \$71 million from the updated July 2021 value of \$463 million and up \$229 million from August 2020; (ii) August 2021 average natural gas prices were 22% higher than July 2021 average prices; (iii) average Real-Time Hub Locational Marginal Prices (LMPs) for August (\$48.83/MWh) were 37% higher than July averages; (iv) average August 2021 natural gas prices and Real-Time Hub LMPs over the period were up 161% and 105%, respectively, from August

2020 average prices; (v) average Day-Ahead cleared physical energy during peak hours as percent of forecasted load was 100.4% during August (down from 100.6% in July), with the minimum value for the month (95.9%) on August 6; and (vi) Daily Net Commitment Period Compensation (NCPC) payments for August totaled \$2.3 million, which was down \$0.5 million from July 2021 and down \$1.1 million from August 2020. August NCPC payments, which were 0.4% of total Energy Market value, were comprised of: (a) \$1.9 million in first contingency payments (down \$0.3 million from July); (b) \$35,000 in second contingency, and (c) \$355,000 in distribution payments.

Regarding transmission outages, Dr. Chadalavada noted the planned outage of , line 354 from Northfield to Ludlow, which would be out of service through September 8 and again from September 25 to October 24 and would limit imports from New York (NY) to 700 MW and exports to NY to 1,200 MW. He also noted a second construction-related structure outage, which would be on lines 312/393 from October 14 to October 24 and again from November 29 to mid-December, limiting transfers with NY in both directions to 700 MW.

Dr. Chadalavada reported that registration was open for the Regional System Plan Public Meeting to be held virtually on October 6.

Dr. Chadalavada than referenced the impacts on the bulk power system of tropical storm Henri, which were minimal in comparison to those expected had it been a hurricane with landfall in Connecticut. He said that the system performed well, with only two 115 kV lines impacted (both restored that same day) and approximately 125,000 customer outages (most occurring in Rhode Island, where Henri landed). He compared those limited impacts to those experienced the year before in connection with Hurricane Isaias and those being experienced in Louisiana with Hurricane Ida.

In response to questions about the impacts of the storm, Dr. Chadalavada noted that nuclear units were not postured during the storm. The shutdown procedures for those units, given projected wind speeds and storm surge levels, made them unavailable for posturing. The units were not needed in any case because the generation cleared in the Day-Ahead Energy Market was more than sufficient to meet the low load levels experienced.

Dr. Chadalavada then contrasted the experience during Henri with conditions experienced on August 25 and 26. During that latter two-day period, load was in the 23,000-24,000 MW range, just above projections. Dr. Chadalavada highlighted for the Committee that despite higher LMPs and tight operating conditions during those days, no scarcity conditions occurred and there was no need for supplemental commitments. When prompted, he said that Day-Ahead prices for reserve products would likely have mitigated load sensitivity issues during this period. He confirmed that pay-for-performance conditions were not triggered during this period, and the region had not been close to violating any of its reserve requirements.

When asked about the timing for the Master/Local Control Center Procedure No. 2 (MLCC/2) declaration (which gives the ISO the permission to recall outages) made in anticipation of Henri, he explained the need for time to provide generation and transmission resources a reasonable opportunity to come back into service when needed should their outage be recalled. A member suggested that a revision to the procedure be considered to adjust the timing involved, allowing resources with shorter recall times to come back online closer to when needed.

More broadly, Dr. Chadalavada indicated that, in light of the events experienced over the prior year, particularly those in Texas and Louisiana, further discussion on preparation, recovery

and the analysis of stress testing of markets would take place in connection with the planned discussion of the 2022 regional work plan at the October Participants Committee meeting.

2022 ISO AND NESCOE BUDGETS

Mr. Robert Ludlow, ISO Vice President and Chief Financial & Compliance Officer, referred the Committee to the materials circulated and posted in advance of the meeting related to the proposed 2022 ISO Operating and Capital Budgets. He indicated that the materials remain largely consistent with the more detailed presentation materials that were discussed with stakeholders and State officials in June. Mr. Ludlow highlighted that the key drivers of the 2022 budget increase included: (i) funding for an increase in the number of employees (particularly in the areas of markets development, system planning, modeling and information technology (IT)); (ii) contingency funding to allow for increased flexibility for additional studies or analyses as needed; (iii) and capital costs associated with establishing a new platform as part of the region's transition to a cleaner grid.

Summarizing the process for budget review and approval, Mr. Ludlow said that the budgets had been reviewed with the Budget and Finance Subcommittee and State officials in August. Any additional comments from State officials on the budgets were due in approximately one week. The ISO would respond to any such comments and questions by late September. The ISO Board would review the budgets and all feedback received and the Participants Committee would be asked to vote on the final 2022 Budgets at its October 7 meeting. A FERC filing would then be made in mid-October.

In response to questions, Mr. Ludlow clarified how and in what areas the additional staff positions would be phased in. He also provided additional insight into how capital budgets were expected to be impacted over the subsequent five years, with Dr. Chadalavada reminding

members of the market system platform replacement planned to take place during that timeframe. Mr. Ludlow noted that forecasts of the impact of depreciation costs in[?] future years were included with the detailed presentation materials for the June Summer Meeting.

Turning to the 2022 NESCOE Budget, Mr. Cavanaugh referred the Committee to the NESCOE Budget materials posted in advance of the meeting. He noted that Ms. Heather Hunt, NESCOE Executive Director, was available for questions or comments. There were no questions or comments. He asked that members reach out to Ms. Hunt directly prior to the October vote if any questions or comments arose.

REQUEST BY STORED SOLAR FOR WAIVER OF GIS OPERATING RULES AND GIS AGREEMENT

Mr. Paul Belval, NEPOOL Counsel, referred the Committee to the memorandum circulated and posted in advance of the meeting related to a request by Stored Solar J&WE, LLC (Stored Solar) for waiver of the Generation Information System (GIS) Operating Rules and GIS Agreement with APX Inc. to address a reporting error which occurred in the months of February and March 2021. Mr. Belval provided a summary of the request, noting that Stored Solar incorrectly entered the production by fuel type for each month, such that the biomass output was entered as natural gas output, and the natural gas output was entered as biomass output. He then provided an overview of the applicable GIS Operating Rules and the options for proceeding. Following Participant comments and a process overview by Mr. Sebastian Lombardi, the Committee agreed without opposition to defer further consideration of the matter to the October meeting, to allow for additional review and consideration of the waiver request.

LITIGATION REPORT

Mr. Lombardi referred the Committee to the August 31 Litigation Report that had been circulated and posted the day before the meeting. He highlighted the following:

- (i) The first of two FERC technical conferences to discuss potential energy and ancillary services market reforms to be held on September 14;
- (ii) The August 20th deficiency letter issued by the FERC in connection with the joint filing by Participating Transmission Owners Administrative Committee (PTO AC) and the ISO of tariff revisions addressing the treatment of certain behind-the-meter generation. The deficiency letter directed additional information be filed by September 20, and will re-set the FERC's 60-day deadline to act on the proposed tariff revisions; and
- (iii) The first meeting of the recently established Joint Federal-State Task Force on Electric Transmission has been scheduled for November 10, 2021 in connection with NARUC's annual meeting. Members of the Task Force, are comprised of FERC Commissioners and 10 state regulators, including New England State Commissioners Riley Allen (VT PUC) and Matt Nelson (Chair, MA DPU).

COMMITTEE REPORTS

Markets Committee (MC). Mr. William Fowler, the MC Vice-Chair, reported that the next MC meeting would be held September 13-14. An additional MC meeting would also be held on September 29.

Reliability Committee (RC). Mr. Robert Stein, the RC Vice-Chair, reported that a joint MC/RC meeting was scheduled for the afternoon of September 17 to consider potential next steps/actions for the joint Committees based on results from the Future Grid Reliability Study that will be provided to stakeholders during a Planning Advisory Committee (PAC) meeting scheduled for the morning of the 17th. The regularly-scheduled RC meeting is scheduled for September 21, and would include a vote on Installed Capability Requirements (ICR) for FCA16.

Transmission Committee (TC). Mr. José Rotger, the TC Vice-Chair, reported that the scheduled September 28 TC meeting would include: (i) a vote on two sets of ISO-proposed changes to Attachment K of the Open Access Transmission Tariff (OATT), one set to expand resources included in the needs assessment and other planning studies and the other set to implement changes to the competitive transmission RFP provisions based on the lessons learned following the recent Boston Transmission RFP process; and (ii) continued discussion on the stakeholder proposal to eliminate from Schedule 11 of the Tariff operating and maintenance (O&M) charges for network upgrades associated with new generation interconnections.

Budget & Finance Subcommittee. Mr. Thomas Kaslow, the B&F Subcommittee Chair, reported that the next meeting was scheduled for October 4.

Membership Subcommittee. Ms. Sarah Bresolin, the Membership Subcommittee Chair, noted that a second meeting to consider potential changes to the characterization of the Fuels Industry Participant membership category (which had expanded to include a few trade association members) was scheduled for September 10. Ms. Bresolin indicated that proposed changes would be posted on the Subcommittee's NEPOOL website page, and would be further discussed at the September 10 meeting.

ADMINISTRATIVE MATTERS

Mr. Cavanaugh noted that the next Pathways Study meeting was scheduled for afternoon of September 23 and would be held virtually. He reported that plans to begin meeting in person, beginning with the October 7 Participants Committee meeting, were proceeding. He thanked Participants for their responses to the questionnaire that had been circulated a few weeks before. He reported that more than 85% of NPC members and alternates who regularly attend meetings answered the questionnaire, all reporting that they were fully vaccinated, and more than 70% of

the respondents indicating they would be comfortable attending in-person NEPOOL meetings in October, subject to various protocols. The information provided was informing efforts among ISO and NEPOOL Committee leadership to establish safety measures and protocols for a return to in-person meetings. Additional information regarding those measures would be shared in mid-September. Those interested in the aggregate questionnaire data were encouraged to contact Mr. Pat Gerity, NEPOOL counsel, directly.

Mr. Cavanaugh noted that the October 7 Participants Committee meeting would include, among other issues, a review of the 2022 work plan and votes on both the ISO and NESCOE 2022 budgets. Looking further ahead, he highlighted that the November Participants Committee meeting would be held on Wednesday, November 3, at the Hilton Boston Logan Airport and would be preceded by Sector meetings with ISO board members.

There being no other business, the meeting adjourned at 12:01 p.m.

Respectfully submitted,

Sebastian Lombardi, Acting Secretary

CONSENT AGENDA

Reliability Committee (RC)

From the previously-circulated notice of actions of the RC’s September 20, 2021 meeting (Revision 1), dated September 21, 2021.¹

1. FCA16 HQICC Values

Support the following Hydro-Québec Interconnection Capability Credit (HQICC) values for the sixteenth Forward Capacity Auction, which is associated with the 2025-2026 Capacity Commitment Period (FCA16), as recommended by the Reliability Committee at its September 21, 2021 meeting, with such further non-material changes as the Chair and Vice-Chair of the Reliability Committee may approve.

2025-2026 Capacity Commitment Period (CCP) Month	HQICC Values (MW)
June	923
July	923
August	923
September	923
October	923
November	923
December	923
January	923
February	923
March	923
April	923
May	923

The motion to recommend Participants Committee support was approved, with two oppositions in the Supplier Sector noted and nine abstentions (1 Generation, 6 Supplier, 2 Alternative Resource).

[continued on next page]

¹ RC Notices of Actions are posted on the ISO-NE website at: [https://www.iso-ne.com/committees/reliability/reliability-committee/?document-type=Committee Actions](https://www.iso-ne.com/committees/reliability/reliability-committee/?document-type=Committee%20Actions).

2. FCA16 ICR and Related Values

Support the following megawatt (MW) values that represent the New England Installed Capacity Requirement (ICR), Net Installed Capacity Requirement (Net ICR), Southeast New England Local Sourcing Requirement (LSR), Maine Maximum Capacity Limit (MCL), Northern New England MCL, and Capacity Demand Curves for the System and Capacity Zones based on the Marginal Reliability Impact (MRI) methodology for FCA16, as recommended by the RC at its September 21, 2021 meeting, together with such further non-material changes as the Chair and Vice-Chair of the RC may approve.

	2025-2026 CCP ICR Values (MW)
Installed Capacity Requirement	32,568
Net Installed Capacity Requirement	31,645
Southeast New England (SENE) Local Sourcing Requirement	9,450
Maine Maximum Capacity Limit	4,095
Northern New England (NNE) Maximum Capacity Limit	8,555

2025-2026 CCP**

**Figure 3: Maine Capacity Zone Demand Curve
2025-2026 CCP**

**Figure 4: NNE Capacity Zone Demand Curve
2025-2026 CCP**

The motion to recommend Participants Committee support was approved, with two oppositions in the Supplier Sector noted and eight abstentions (1 Generation, 5 Supplier, 2 Alternative Resource).

3. Changes to Appendix J to OP-16 (Periodic Review Changes)

Support revisions to Appendix J to ISO New England Operating Procedure (OP) No. 16 (OP16-J) (Transmission System Data, Instructions for Submission of Dynamics Data), which update the process for submittals of transmission system data, discontinue current transmission equipment user models for stability studies, update provisions of dynamic load modeling characteristics and add a requirement to provide “as built” characteristics for new equipment, all as recommended by the RC at its September 21, 2021 meeting, together with such further non-material changes as the Chair and Vice-Chair of the RC may approve.

The motion to recommend Participants Committee support was unanimously approved.

4. Changes to OP-21 (Generator Winter Readiness Survey Question Revisions)

Support revisions to OP-21 (Energy Inventory Accounting and Actions During an Emergency) which add and update Generator Winter Readiness Survey questions in order to enhance awareness of potential impacts of generator availability due to extreme cold weather and precipitation, as recommended by the RC at its September 21, 2021 meeting, together with such further non-material changes as the Chair and Vice-Chair of the RC may approve.

The motion to recommend Participants Committee support was unanimously approved.

5. Changes to OP-7 and Appendix A to OP-7 (Annual Review Changes)

Support annual review revisions to (i) OP-7 (Action in an Emergency), which modify instructions for current expectations and stipulate expectations for operator communications; and (ii) Appendix A to OP-7 (Instructions for Implementation of Manual Load Shedding), which enhance instructions to determine load to be shed and restored and update language in examples to illustrate enhanced instructions, all as recommended by the RC at its September 21, 2021 meeting, together with such further non-material changes as the Chair and Vice-Chair of the RC may approve.

The motion to recommend Participants Committee support was unanimously approved.

6. Changes to Appendix A to OP-2 (Biennial Review Changes)

Support revisions to Appendix A to OP-2 (Itemized Equipment), which include minor updates and edits to the itemized equipment list along with additional clarifications following a biennial review, as recommended by the RC at its September 21, 2021 meeting, together with such further non-material changes as the Chair and Vice-Chair of the RC may approve.

The motion to recommend Participants Committee support was unanimously approved.

7. Changes to OP- 19 (Annual Review Changes)

Support revisions to OP-19 (Transmission Operations), which include updates to the Reference section and formatting, attributions, grammar and composition changes, as recommended by the RC at its September 21, 2021 meeting, together with such further non-material changes as the Chair and Vice-Chair of the RC may approve.

The motion to recommend Participants Committee support was unanimously approved.
